SAFELET IV CATHETERS

- ✓ This product does not contain natural rubber latex
- ✓ Sterile, Non-Toxic, Non-Pyrogenic.
- ✓ Functional design casing permitting one action opening and no rolling
- ✓ Color-coded casing cap allows for easier identification of catheter size
- ✓ Translucent catheter hub and flashback chamber allows for easy detection of blood flashback at vein insertion
- ✓ Precision finished FEP catheter assures stable flow and eliminates catheter tip kink during venipuncture
- ✓ Easy dispenser pack
- ✓ Radio-opaque catheter
- ✓ Cannula with additional back bevel
- ✓ Can be connected to syringe by removing filter cap to expose Luer taper end
- ✓ Use of hydrophobic membrane filter eliminates blood leakage
- ✓ Close and smooth contact between catheter tip and inner needle enables safe and smooth venipuncture
- ✓ Crimped smooth engagement between catheter and hub, without use of adhesive, helps eliminate blood residuals and helps reduce blood coagulation or hemolysis

DENTAL NEEDLES

SuperJect®

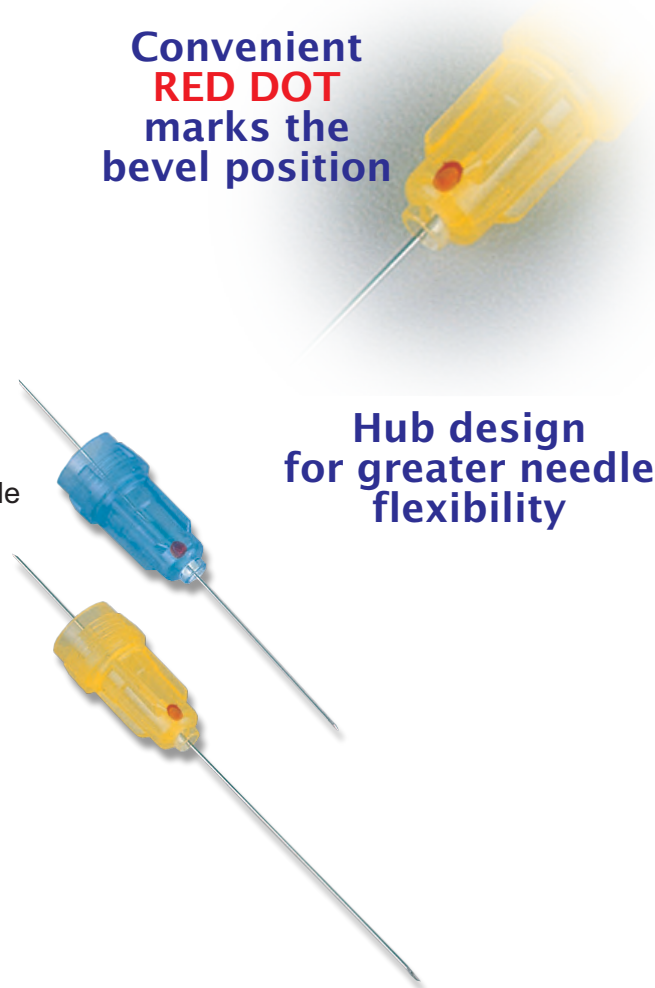

DENTAL NEEDLES PLASTIC HUB

Catalog No.	Description	Length	Hub Color
26562	30G x Long	(32mm)	Blue
26557	27G x Long	(32mm)	Yellow
100/box 1,000/case			

- ✓ This product does not contain Natural Rubber Latex
- ✓ Sterile, Non Toxic, Non-Pyrogenic
- ✓ Hub design lowers the chances of needle breakage by 500%
- ✓ RED DOT on the needle hub marks the needle bevel position, even when the needle point is not visible.
- ✓ Years of exacting experience in the production of hypodermic needles has been applied to the production of Dental Needles, virtually painless, atraumatic, and perfectly sharp to give maximum patient comfort. Dental Needle production is computer controlled in all processes from manufacture to inspection. In addition, every needle passes an optical inspection.
- ✓ The cannula is siliconized.
- ✓ Needles are sterilized by Ethylene Oxide and their sterility is guaranteed by testing every production lot prior to release.
- ✓ Dental Needle hubs and boxes are color coded by gauge for easier identification of suitable needle and gauge.
- ✓ Each needle is individually packaged, sterilized, and ready for immediate use.
- ✓ Self-tapping ribs placed on the outside of the hub, and inside threads make for ease of use.
- ✓ Larger cannula lumen (.0055")

**Convenient
RED DOT
marks the
bevel position**

**Hub design
for greater needle
flexibility**

SPINAL NEEDLES

HUBER NEEDLES

- ✔ This product does not contain Natural Rubber Latex
- ✔ Convenient blister packaging
- ✔ Non-Pyrogenic
- ✔ Transparent plastic hub
- ✔ Siliconized for smooth comfortable penetration

PRESSURE BANDAGE

ZorBand® PRESSURE BANDAGE

- ✔ This product does not contain natural rubber latex.
- ✔ Sterile
- ✔ Safe
- ✔ Increased efficiency
- ✔ Individually packaged
- ✔ More convenient than traditional dressings
- ✔ ZorBand reduces direct pressure time by over 40%
- ✔ Absorbent cellulose pad expands when contacted by blood
- ✔ Swelling action of pad creates a pressure compress
- ✔ Firmly applies pressure to puncture
- ✔ ZorBand tightly binds to patients' skin to guard from leakage and maintain pressure
